

## CLOTHING SPECIALS

"Up Guards and at them!" won for Wellington at Waterloo, and the same clarion tones have inspired all business efforts. The General who pauses is lost, and so is the business man. Quick decision and prompt action are necessary if the store is to grow and keep growing. The success of one year is never high enough mark for the next, and it is only because we do our best every day that sales continue to grow. If you are in need of a Suit or Overcoat of any sort now's your chance. It will pay you to buy now for a year to come. Every day new customers get acquainted with our way of selling clothes. The idea of choosing where there is nothing but good quality to choose from, where you can be sure of getting value for every dollar you pay, where back of every sale is a guarantee of your continued satisfaction, is making us new friends right along. We invite you to call.

## DIDSBURY FALL FAIR

**Monday and Tuesday**

### AROUND THE TOWN

Did you see those heavy boards Corbitt is selling for granaries.

A Brusso has taken a position with J. V. Berscht during the illness of Mr. L. Kalbfleish.

There will be a Celebration of the Holy Communion on Oct. 3rd, at St. Cyprians parish Church.

Mr. and Mrs. Fred Moyle left for a two weeks trip to the Okanagan Valley on Monday.

Ontario grapes in baskets, 75 cents a basket, at Leigh S. Curtis, opposite the Union bank.

WANTED—Girl wanted for house work. Family of three. Apply Mrs. F. N. Ballard.

Mrs. D. B. Cressman and son Eluid arrived home from Chilliwack, B. C., on Thursday morning's train.

Lethbridge first grade flour our best, at \$3.25 per sack. Five sacks or over \$3.15 per sack. — C. C. Pearson.

Ladies bring your old millinery and let us remodel it into this year's fashion. Peter's millinery rooms at the cheap cash store.

Didsbury Fall Fair will be held next Tuesday and Wednesday. It will be bigger and better than ever, so don't miss it.

FOR SALE—One 2 horse power, gasoline engine, never been used. Cheap. Easy terms. Apply Gilmore the baker.

Mr. J. Connell, who has been with the W. H. Smith Hardware Co. for the last two or three years left on Monday for Tabor where he has accepted a new position.

Get a Perfecto diamond point fountain pen and a free accident insurance policy for \$1,000 at Leigh S. Curtis', opposite the Union bank.

Miss E. Nicholl, of London, Ont., who has been visiting with her sister, Miss F. Nicholl, for the last few weeks, returned home on Sunday night's train.

Arrangements are being made to hold the Didsbury Fall Fair next Tuesday and Wednesday at the park, west of the butte. Two large tents will be provided for inside exhibits this year.

FALL MILLINERY OPENING, 1909 We extend an invitation to the ladies of Didsbury and vicinity to visit at this time our fall opening, October 1st, and 2nd.—Mrs. A. BOSSENBERRY.

Messrs. Campbell & Cook, Ghost Pine, have been appointed agents direct for all International harvester implements. This enterprising firm of young men will no doubt make good in their new undertaking.

V. D. Haag of the German American Colonization Co., Calgary, made two more nice real estate deals in this district to Geo. L. Thomas, Plattsmouth, Neb., and A. Harding, Beaver City, Neb.

Eggs wanted at C. C. Pearson's. No. 1 Shiplap at Corbitt's for \$17 per M.

FOR SALE—Good second hand wagon for sale.—Apply D. C. Corbitt.

WANTED—500 tons timothy and upland hay. Highest market prices, D. C. Corbitt.

W. Marsden returned from a two months visit to Washington and California on Tuesday afternoon. While in Washington Mr. Marsden attended the Seattle fair.

W. R. Vogel left on Saturday's train for Calgary to consult a specialist on throat troubles. It is reported that he will have to have an operation performed.

WHY PAY RENT—When you can buy a five room house and barn, for only \$800? \$50 cash, balance \$15 per month. Located on an acre in the thriving town of Didsbury. Hiebert, Gaddes & Findlay.

The Ladies Aid of the Presbyterian church will give a social evening on Thursday night, Messrs. A. Bedford of New York, and J. L. Beecroft, B. A., of Kingston, will assist in the programme.

On Sunday October 10th, Harvest Thanksgiving services will be in Cyprian's Parish Church at 7.30 p.m. The Rev. Archdeacon Gray, of Edmonton will be present and preach the sermon. All are made cordially welcome.

A lecture will be given on Thursday evening, October 21, in the Hartman church entitled "Squire Brooke, the Yorkshire Evangelist," by J. D. Worthwaite. This is the first of a series of entertaining lectures to be given during the fall and winter months in the church. The lecturers will be J. Speakman of Penhold, Mr. Johnson of Eagle Hill, former missionary to Japan; R. B. Bennett, K. C. Calgary; H. F. Kenny Prov. Sec. of the Alberta S. S. Association, Calgary.

Did you see Didsbury's patrol waggon last week? Constable Vernon had to round up three undesirables who were making themselves obnoxious and being unable to handle all three at once called on the driver of a delivery wagon to assist him. The constable had to use one of them rather roughly with the consequence that the prisoner sustained a broken head. All three appeared before Magistrate Atkins on Saturday. Two were fined \$5 each and given one hour to get out of town, and the other was fined \$5 and given 30 days at Calgary. These young fellows had been working on the C.P.R. and were newcomers to the West.

Tenders will be received by Dr. Weart of Didsbury until Saturday, October 2nd., for the plastering with two coats, the Methodist church at Didsbury and for building a cement wall under the same. Applicants will please give terms per yard in both cases. Contractors must furnish all materials excepting for wall. A first class job must be guaranteed.

(Continued on last page.)

### DIED

FERGUSON—At Bardizag, Turkey, on Friday, September, 19th, 1909, Jean Huriette, infant daughter of Rev. and Mrs. J. S. Ferguson, aged 8 months and 12 days.

## UNION BANK

OF CANADA  
Capital, Rest and Undivided Profits

## How to Use the Local Exhibition.

By W. C. Trench, Alix, Alta.

It never seems to occur to many farmers and their families that the local exhibition has any object in existing, except as an amusement. While it cannot be called a failure if it does this, yet it has a far greater task; and it depends upon the individual whether the exhibition fulfills in every way its object.

Let us look and see what we can gain by the exhibition, and also how the exhibition can gain by us.

First of all, when the prize list comes out, look it over carefully and see if you cannot enter something under some of the various classes. They are so numerous there is sure to be something for you. Make as many entries as you can. It will help the exhibition along; nothing like competition to increase interest. Then you may be one of the winners, which is payment enough for the trouble, if only in advertisement of your goods. If you are not a winner, look the winners over, compare with your own, find out the defect, and go back prepared to remedy it. The knowledge gained is worth the trouble of preparing for your exhibit.

When the day of exhibition arrives go to it intending to learn something. You will see that the best stock, grains and garden produce of your immediate neighborhood. In the new settler this ought to be a tremendous opportunity to learn other peoples experience with no cost to himself.

You may be sure the prize winners have in every case those things which are best suited to conditions right on the spot; and now is the chance to see and learn about what you see.

Cattle, horses, sheep and pigs will be there; look them over, note their good points, and if you are in need of anything in this line make enquiries at once.

Know the reason why John Smith got the prize for cats. He will probably be round and will be glad to tell you what seed he used, and how early he planted, and how he prepared his ground. Probably his land is no better than yours, but his methods are better, so he gets better results.

Possibly there are some splendid big roots, bigger than you ever saw out here. Take the trouble to find out what varieties were sown, and when, and put your information to good use in your garden next year.

Don't fail to take your wife to see the poultry, eggs, butter, cakes and preserves, as well as needlework. These are the things which interest her; and it means a great deal to the woman on the homestead to have an outside interest. Next year she will wish to compete, to show she can rear and dress poultry, make butter or cheese, as well as her neighbour.

There may be a lecture or demonstration going on during some part of the day. Note the hour and go to it. You may learn something about a grass you did not know grew here, or something about dairying or poultry—some simple practical thing which means money to you if applied.

Usually there is something to interest the children—a collection of flowers or grasses. Encourage your boy or girl to enter for a prize. You are giving him or her an interest in things about them which may help hold them to the farm in later years.

If there is a collection of noxious weeds, look them over: see if any are similar to those you are troubled with; ask the person in charge the best way of fighting them.

Nearly everything at the exhibition will teach you something if you will only learn it; and this is its main object. The government realizes what a benefit it can be to a community in helping the intelligent farmer. It stimulates competition, encourages the exhibitor to further efforts, teaches him his mistakes and advertises his goods.

## O. W. HEMBLING

## Meeting of the Free Library Board.

A meeting of the Library Board was held on Friday afternoon last at the library rooms and business of importance to the welfare of the library was transacted.

The following members of the board were present: D. C. Corlitt, chairman; H. E. Osmond, secretary-treasurer; Dr. A. J. Weart and Mr. A. F. Studer.

Several small accounts were rendered and order paid.

On motion it was decided to sell the back numbers of magazines on hand at one each. The librarian and janitor of the school was authorized to sell same.

It was decided to keep the reading room open every night for a month or so and if it is not better patronized it will be closed at the end of that time. It will be advertised better than formerly.

Mr. H. B. Atkins' resignation from the board was accepted and Mr. H. S. Patterson was elected to fill the vacant position on the board.

The following were appointed a committee to choose new books: Messrs. Dr. Weart, H. E. Osmond and H. S. Patterson.

It was moved and carried that the fines for overdue books be reduced from five to three days.

The meeting then adjourned.

## Nine Cent Hogs.

Hogs sold at nine cents per pound live weight of the cars, Winnipeg, last Saturday. This remarkable fact is the result of some other facts which are worth while recalling at this time. While hogs were marketed at Winnipeg to the value of one and a half millions of dollars, the west imported hog products such as lard, etc., to the value of two and three quarter millions. Yet in this year when imports of hog products were so large, the number of hogs marketed at Winnipeg increased from 87,000 to 145,000. This latter figure only represents one third of the annual packing capacity of the Winnipeg abattoirs as at present operated. Thus the farmers of the west only raised about one hog for every three required, while the plants for the packing of all that were required stood partially idle and the dealers were forced to import hog products to meet the deficiency. In the face of these figures receipts of hogs this year are falling below those of last year, so that imports into an agricultural community of this staple of the farm will be much higher than they were last year.

For years past a large proportion of our farmers when urged to raise more stock have refused to do so on the ground of an unsatisfactory live stock market. In view of the above figures and the further fact that the price of hogs at Winnipeg has not dropped below five cents in the past four years, while the average price for the years

1906, 1907 and 1908 was 6½ cents, it looks as though the whole live stock situation would bear reviewing on the part of those who were formerly dissatisfied. Some very easy money is represented in nine cent hogs, and why should the bulk of it go to the farmers south of the line who cannot raise as good hogs as we can?

## Didsbury Merchants Donate Cup to Three Hill Agricultural Society.

The Three Hills Agricultural society will hold their second annual fair on Tuesday, Oct. 12, and by all appearances the fair will be a bigger success than last year. A new feature in the prizes to be won is started this year with a cup donated by the merchants of Didsbury to be given to the exhibitor gaining most points in both the horse and cattle sections combined. The cup is valued at \$50 and is well worth winning.

## High River Exhibition.

The establishment of an annual agricultural exhibition at High River, and the making of the exhibition this year—the first year—such a great success as to ensure success the following year, is the proposition undertaken by the citizens of the town and district of High River. The event will be under the management of the High River Agricultural Society, and the enthusiastic support which has already been tendered the management is a guarantee that the object of the society will be attained. The exhibition this year will be held on October 19 and 20. Liberal prizes for live stock and farm produce, etc., and an attractive programme of races and other attractions will be offered. Price lists and particulars in reference to the exhibition may be had on application to Harry Nelson, Secretary and Manager, box 253, High River.

One of the greatest living practical disciples of the anti-race suicide school in America is Mrs. Martha Price, of Arabacooche, Alabama, a hamlet of that state. If Mrs. Price should decide to establish a colony of the Price family and gather all her offspring about her, the settlement would have a population of 286.

## YOUNG TURKS WIN OUT

PEACE ONCE MORE RESTORED IN CONSTANTINOPLE

Sultan Has Been Permitted to Remain Within the Walls of Yildiz Kiosk—Will be Dealt With by Parliament and an Adequate Inquiry will be Made into the Severe and Alleged Complicity—Martial Law Prevails

Constantinople.—The Yildiz garrison has surrendered to the Constitutional forces. Sultan Abdul Hamid has been permitted to remain within the walls of the Yildiz Kiosk, where, in company with his ministers, he waited for the outcome of the struggle between his loyal troops and the army of investment, each hour bringing to him word of a fresh disaster. It has been since since victory rested with the Constitutionalists that the Sultan himself gave orders to his men not to resist. Whether or not this is true, it can be safely said that the troops within the capital that they put up a stubborn resistance at all points and the losses on both sides were exceedingly heavy for the length of time the engagement was in progress.

The representative commander of the Constitutional forces is authority for saying that the Sultan will be dealt with by parliament and there will be an adequate inquiry into the sovereign's alleged complicity in the recent mutiny. Up to the present the military has been disarmed but Constantinople and a number of other places have been declared in a state of siege. The Sultan is still in the city and while there is some uneasiness among the people, order has been maintained with a minimum of bloodshed.

London.—The Standard's Constantinople correspondent estimates that two thousand men were killed in the fighting in the capital, and that the losses were heaviest on the side of the Constitutionalists, who did all the "killing and the dying" and who were open. At the time of the surrender, the correspondent adds, the Sultan had with him, besides the grand vizier and the war minister two of the nearest heirs to the throne, Ahmed Reza Effendi and the prince of the blood, who had been detained as hostages. It is reported from Rome that about eighty of the Sofas and Molais who took refuge in mosques were found to be armed when they were captured, and were placed against the nearest wall and shot.

## Shipping Wheat Via Pacific Coast

Ottawa.—An important Alberta reputation consisting of Premier Rutherford, L. P. Fearn, secretary of the United Farmers' Association, J. P. Strong, general manager of the Alberta Pacific Elevator company, and George Harcourt, deputy minister of agriculture, will hold a conference with Sir Richard Cartwright and the trade and commerce representatives in regard to the shipping of wheat and other Alberta products to the Pacific coast.

It is understood that they will urge upon the government a number of changes in the Manitoba grain act, which Alberta claim at present makes shipment very difficult. They will ask for a grain inspector for the border between British Columbia and British Columbia, and will also urge the erection of a government terminal elevator at Vancouver.

## Sale of School Lands

Edmonton, Alta.—William Ingram, commissioner of school lands in Alberta, Saskatchewan and Manitoba, with headquarters in Winnipeg, is taking a trip through Alberta in connection with the sale of school lands in this province. It is proposed to hold four auction sales of school lands in Alberta. One will be held at Lloydminster on June 23, when about 125 quarter sections will be sold; one at Pincher Creek, one at Macleod, and one at Lethbridge. The sales will be held during the latter part of the month of July. The land in the south includes some 1,500 quarter sections, the greater part of which is excellent land. The upset price on this property ranges from \$7 to 15 per acre. It is possible that a sale of school lands will take place next fall in the northern district. Six similar sales are pending in Manitoba and a number in Saskatchewan.

## Bersford's Warning

London.—"If the country knew the truth regarding the present condition of the navy there would be a better state of mind," is a striking sentence in a letter from Admiral Lord Charles Bersford read at a meeting of the Navy League at Bournemouth. Lord Charles said: "I wish you very much in trying to advise the people the grave danger arising from our unpreparedness for war."

## Lucky Canadian Editors

London.—A sham fight wherein 17,000 troops will be engaged is fixed for June 6th at Aldershot for the delegates to the Imperial Press conference

## C. N. R. PLANS IN ALBERTA

Branch Line to be Constructed South from Vegreville to Calgary this Spring

Edmonton.—The Canadian Northern with this spring commence the construction of a branch south from Vegreville into Camrose and on to Calgary, which is to connect near Camrose with the branch from Strathcona. Already the railway company has laid down at Vegreville a large quantity of construction material and more is coming in all the time, and evidently the intention is to start work as soon as the weather proves favorable.

This will be one of the first branches to be built by the Canadian Northern railway under the provincial government guarantee bonds. The line from Vegreville south has already been laid out by surveyors and it is believed the railway company has secured the right of way into both Vegreville and Strathcona. For some time agents of the company at Strathcona have been in the field buying the right of way, and work is about completed. The railway company have also been negotiating for terminals at Calgary, and it is probable that construction work will be carried on out of Calgary as well as from Vegreville.

Fifty miles of this line at least will be completed this year. The Canadian Northern have also placed surveys in the field to run final surveys of the extension from Morinville to Athabasca Landing, which extension is also to be built under government guarantee bonds. Trains will be run over this extension within a year.

## Poached in Error

Vancouver.—The Seattle halibut fishing schooner Levy Woodbury was captured by the Dominion government in the Kestrel fishing for halibut in Canadian waters off Dixon entrance. The schooner with the crew were brought to Vancouver. The Woodbury was fishing inside the three mile limit.

Vancouver.—Captain Sinclair and the crew of the schooner "Chas. Levi Woodbury" left for Seattle after leaving affidavits with U. S. Consul Col. West. These affidavits were given to the Kestrel, which was undoubtedly in Canadian waters. The Kestrel's sacking on the schooner, except that the men on the schooner were not allowed to land. Sinclair undoubtedly thought the Kestrel was outside the three mile limit, whereas the Kestrel was justified in chasing the Woodbury to the limit. The consul there, who is familiar with the Kestrel, said the Woodbury drifted unintentionally into the three mile limit, and that the imposition of a fine will meet the case.

## Coal Strike Spreads

Calgary.—That all the coal mines in Alberta, with the exception of one small one at Frank, are now idle, is the information brought to town by the National Coal Association, manager of the Lethbridge Collieries, who arrived here on Saturday last. Mr. Naismith did not deem desirable to discuss the strike to any great extent. "Frank Sherman has called all the men out," he said. "They are now out at Taler and everywhere else, with the exception of the small mine at Frank, and the whole principle involved is that of the closed shop."

Asked as to the probability of serious tie-ups in railroading and other industries, Mr. Naismith said he was vouchsafed only the one word, a very decided "undoubtedly." "It means 'all out'—the strike is over and that is a prolonged general strike of all the coal miners in Alberta."

## An Interesting Wager

Ottawa, Neb.—The National Corn Exposition officers in Omaha have been notified by Col. E. J. Bell, of Laramie, Wyo., that he has made a wager with Western Canadian farmers that his Wyoming farm would produce more bushels per acre than any land in Western Canada.

The wager is for \$10,000 cash, and the National Corn Exposition officials will judge the crops. Col. Bell has for years made a specialty of oats. At the head of the Canadians who are backing Alberta is Fred W. H. Fairchild, of Lethbridge, Alberta.

## Mining Delegation at Ottawa

Ottawa.—Dr. R. E. Barlow, E. C. Craig, J. M. Clark and J. P. Tirrell were a delegation representing Canadian prospects before the sub-minerals committee on mines and minerals. They suggested that the administration of all mineral lands be transferred from the department of the interior to the department of mines. Surface rights, they argued, should be separated from mining rights.

## Will Stick to Prince Rupert

Edmonton, Alta.—C. G. Vanisild, divisional engineer of the G. T. P. for the mountain division, who has just returned from Prince Rupert, states that the company will maintain Prince Rupert as its principal coast terminus but it is probable that surveyors will be sent to the field this summer to lay out a branch to Vancouver from the main line on the other side of the mountains.

## THE SUNDAY SCHOOL

Lesson V.—Second Quarter, For May 2, 1909.

## THE INTERNATIONAL SERIES.

Text of the Lesson, Acts xiii, 1-12. Memory Verses 2-3—Golden Text, Mark xvi, 15—Commentary Prepared by Rev. D. M. Stearns.

(Copyright, 1909, by American Bible Society.)

There would be a warm welcome for Barnabas and Saul from the Christians at Antioch on their return from Jerusalem, and John Mark, Barnabas' sister's son, whom they had brought with them, xiii, 29, would probably find himself in a different atmosphere from that at Jerusalem and must have been much helped by the companionship of his uncle, Barnabas, and by fellowship with such teachers as those here mentioned and by the seal of their warm-hearted believers. They ministered to the Lord and fasted. The things of this world were nothing in comparison with the things of the kingdom, and food for the body was wholly secondary when the pure bread and water of life was to be had. Some who read can understand. Although it means much to minister to the Lord, even a child can do it (I Sam. iii, 1). I have often been impressed with this from the fact that the Lord's will is to the Lord—that the eight words "that they may minister in the priest's office" (Ex. xlviii, 23, 3, 4), and many other places are a translation of a little Hebrew word of three letters, and I have asked myself, Does it take as much of earth's language to open the little words of heaven? For we have no record of any language but Hebrew having been spoken by the Lord from heaven.

It is interesting to note that it means more than any of us know to "minister to the Lord." In the great book of worship, Leviticus, it is used to mark the difference between the "before the Lord," and when they come daily motives with us we shall know more of true ministry. While they were ministering the Holy Ghost said, "Separate Me Barnabas and Saul for the work whereunto I have called them" (Acts xiii, 2). The whole of these chapters in one sentence and the whole of every true Christian life set apart for the Lord, separated from the world, and set apart to do the will of God, to work the works which are beforehand prepared for us (Eph. i, 10; Phil. ii, 13; Heb. xii, 21). The whole of these chapters in one sentence and the whole of every true Christian life set apart for the Lord, separated from the world, and set apart to do the will of God, to work the works which are beforehand prepared for us (Eph. i, 10; Phil. ii, 13; Heb. xii, 21).

the gospel and are paid for preaching the gospel, and teaching the truth (Gen. xlii, 36; Gal. i, 7). Though there may be no spirit left Paul to speak plainly to God, He himself will deal with them in His time. The expression "the hand of the Lord" recalls Ex. xlii, 22. "The hand of our God is upon all them for good that seek Him. But His power shall be against anything that all them that forsake Him." From even this much of the story of this journey we may learn that Spirit filled messengers of God must expect the opposition of the devil.

## KITCHENER LEAVES IN AUGUST

Will Visit Battlefields of Russo-Japanese War and Examine Local Defence Force in Canada

London.—Lord Kitchener will hand over his command in India to Gen. Sir O'Moore Croagh early in August and will proceed to Japan. He proposes to make a long stay in that country and will closely examine the military system and army organization in time of peace. From Japan he proposes to go to China, and he will traverse many of the battlefields in Manchuria, where the Japanese are going over much of the ground with others who took part in the Russo-Japanese war. He has been placed at his disposal by the British and the Japanese government. It is expected that before he concludes his visit to Manchuria Lord Kitchener will be commissioned by the war office to return home by way of Canada in order to examine the local defence forces and to report to the authorities what steps should be taken to improve their organization and administration and how best their training may be co-ordinated.

## Bringing in Buffalo

Edmonton.—Howard Douglas, Dominion parks commissioner, passed through here on his way to Elk park at Lamont. He is making the arrangements for the transferring of 30 buffalo to Wainwright, on the G. T. P. The buffalo form a greater portion of the herd now corralled at the Elk park and will be shipped from here to the park at Wainwright, which has just been fenced and put into shape for the reception of the animals. The buffalo to be shipped from Elk park are now rounded up in one corner of the park and corralled. They were built at the railway track of the Canadian Northern, where the animals will be entrained for Wainwright.

## New Zealand and Imperial Defence

Ottawa.—Sir Joseph Ward, premier of New Zealand, speaking at the defence conference states that the New Zealand government will favorably entertain anything that helps to bring about co-operation between the Motherland and her dependencies on the all-important matter of naval defence. Discussions are now in progress in official circles in London as to the line of action to be followed in the event of a war. The conference is held at an early date. Members of the House of Commons are much inclined to the course of negotiations and are convinced that the result of the conference could only be beneficial and would enable the government next year to bring a definite scheme before parliament.

## No German Treaty

Ottawa.—In the upper house Senator Loughheed asked what truth there was in the report that negotiations had been undertaken by Canada and Germany with respect to reciprocal trade relations. Sir Richard Cartwright said there had been no formal negotiations, and that any negotiations had been of a strictly informal character. Senator Cloran withdrew his bill to restrict the civil of divorce or forbidding marriage for the guilty man or woman from whom a divorce had been granted. He said that as the senate had recently passed a number of divorce bills this session, and as he did not want to be responsible for contradictory legislation, he would withdraw the bill and introduce it at a later session.

## Better Conditions in Congo

Washington.—Action has been taken by the Belgian parliament looking to the bettering of conditions in the Congo according to dispatches received at the State Department from the American minister at Brussels. One dispatch says that there is a strong public opinion in Belgium against forced labor. A resolution has been adopted by the parliament desiring that the government should be submitted as soon as possible for the forced recruitment in the construction of the great lakes railway and to reduce the length of service and better the wages.

## An Englishman's View

London.—C. G. Murray, lecturing on South African union before the Royal Society of Arts, said he found that the South African union which appeared to exceed anything ever witnessed in South Africa, had become a part of history, but fair to be still present.

## Collier's Publisher Dead

New York.—Paul Collier, founder and publisher of Collier's Weekly, died suddenly on Friday last.

## NAVY OF THE EMPIRE

FORTHCOMING NAVAL CONFERENCE IS WARMLY APPROVED

Proposal of Premier Asquith for an Imperial Defence Conference is Heartily Welcomed by Best Opinion in the United Kingdom—House of Commons Convinced that Results Will be Beneficial

London.—The Royal Colonial Institute has passed a resolution appreciative of the "gallant and spontaneous offers of the colonial governments to provide battle-ships and otherwise to join in the naval defence, and cordially welcoming Premier Asquith's proposal for an Imperial defence conference.

The premier of New Zealand, Sir Joseph Ward, speaking regarding the proposed defence conference, states that the New Zealand government will favorably entertain anything that helps to bring about co-operation between the motherland and her dependencies. The all-important matter of naval defence is now in progress in official circles in London as to the line of action to be followed in the event of a war. The conference is held at an early date. Members of the House of Commons are much inclined to the course of negotiations and are convinced that the result of the conference could only be beneficial and would enable the government next year to bring a definite scheme before parliament.

Members of the House of Commons are much inclined to the course of negotiations and are convinced that the result of the conference could only be beneficial and would enable the government next year to bring a definite scheme before parliament.

## Western News Notes

The Prince Rupert Empire is advertised for sale. Thirty men are employed on the standard gauge at Silverton. The Blackwell at Kaslo is shipping steadily to the Trail steamer. The railway company of the majority of Grand Forks have commenced spring work.

The Homer even shipped 2,400 tons of coke to the Trail steamer in March. Ponoka board of trade has issued a pamphlet dealing comprehensively with the merits of that district.

As soon as the boats are running on front lake the mines at Ferguson will commence shipment of ore to the Verner will spend \$2,000 in selecting, packing and exhibiting fruit at the different exhibitions this year.

The C. P. R. is putting a new tug on the Arrow Lakes and also a new steel steamer better than the Rossland.

## Alberta Horses Best in the World

Calgary.—According to R. W. Kinsey, a big horse dealer of Macleod, the Alberta horses are the best in the world, and would be glad to be obtained. The Alberta horse has always a market, and are easier to sell than those of other districts.

Writing to the board of trade, Mr. Kinsey says: "I desire to purchase large quantities of Alberta ranch horses in bunches of twenty or thirty, and would be glad to get in advance names and addresses of Alberta breeders. We find Alberta horses of about 1,200 to 1,400 lbs. are the best and made good farm and general purpose horses, and there is always a good demand for the Alberta horse."

## Kootenay Railway Bill

Ottawa.—Before the railway committee, W. A. Knowlton of Canada and Germany with respect to reciprocal trade relations. Sir Richard Cartwright said there had been no formal negotiations, and that any negotiations had been of a strictly informal character. Senator Cloran withdrew his bill to restrict the civil of divorce or forbidding marriage for the guilty man or woman from whom a divorce had been granted. He said that as the senate had recently passed a number of divorce bills this session, and as he did not want to be responsible for contradictory legislation, he would withdraw the bill and introduce it at a later session.

## Twice Read of His Own Death

Edmonton.—Long since thought dead by many old friends in the northwest, and having had the experience of having twice read his own obituary notice, Dr. Baldwin, one of the doctors of the city of Edmonton district, and for years medical officer in the Royal Northwest Mounted Police, was called to the city after an absence of twelve years, and is treating his old chums to a startling surprise.

## Drys Hold Own in Illinois

Springfield, Ill.—The "dry" generally held their ground in the Illinois municipal election, but the liquor interests as the result of the liquor interests' hard work to prevent a repetition of the anti-liquor law, which was passed in 1907, and the liquor candidates and overwhelming Democratic.

## Invites Laurier to Come West

Ottawa.—Premier Rutherford, of Alberta, is here, and will ask Laurier and Grover Cleveland to the west in the summer to lay the corner stone of the new Alberta provincial buildings.

## Record Grain Inspections.

It has been reported that the farmers were holding their grain in the anticipation of better marketing conditions later on. Be that as it may, the fact remains that grain inspections so far on the new crop are phenomenal. For instance last Saturday and Sunday, 1107 cars of spring wheat were inspected, and 126 cars winter wheat. Of the former, 578 cars were No. 1 northern. For the corresponding days last year, 805 cars of spring wheat were inspected.

On Monday the number of cars was 810 as compared with 466 last year; Tuesday, 728, as compared with 382, and so on. This does not look as if deliveries were being delayed.

We have heard it asked, why should a leading miller advise the farmers to hold back their wheat? One would think that under ordinary conditions a miller, who naturally would wish to buy his grain as cheaply as possible, would not suggest to the producer to hold for higher prices. The first impression an advice from such a source would have upon the farmer would be one of suspicion. Does the miller know that wheat will be lower later on, and that he then can buy at a reduced figure? Are flour stocks from old wheat so large that there is a desire to sell at the present prices before free marketing of new wheat results in lower prices? There are also considerations to be taken into consideration.

We have been asked why the miller in question gave his advice, and we can only argue along the foregoing lines. It is natural to suppose that the miller had no intention to injure his own side of the game anyway. The result reported from Ontario was that the small mills had to close down for want of wheat. If the small miller has no flour to sell, the big miller gets the trade.

"My mamma says that rice is a better food than wheat."  
"Why is it?"  
"Because the food elephants eat contains."  
—Houston Post.

Uncle Georges—Hallo, Willie! been having a swim?

Willie—Yes, uncle! but I'm only learning to swim.

Uncle Georges—Name as me? What do you mean?

Willie—Why, dad was telling us only yesterday as how you had an awful job to keep your head above water.—The Sketch.

## Noting Actual Returns.

For weeks past the intelligent farmer has been taking notes regarding crops and other features on his farm and in the neighborhood. These notes will be used to good account in an attempt to increase the returns per acre in 1910. A comparison of crops grown side by side on his own farm, or of similar crops grown in a neighbor's field, is of inestimable value in assisting the progressive agriculturist in a judicious selection of varieties or strains for seeding purposes.

The use of seed of higher quality and the general practice of thick seeding have been brought into prominence in many districts. The man who is skeptical on these points is consulting his own best interests if he investigates the returns from high grade seed and thick sowing and makes careful comparisons with ordinary seed sown at the usual rate per acre. All through the growing season no doubt he has noticed the general condition of crops. But standing grain frequently is deceptive as to outcome when run through the threshing. Perhaps a field of oats gave promise of a yield of eighty-five or ninety bushels per acre, but actual measurement gave less than sixty bushels. On the other hand it is possible that an oat crop which has been greatly underestimated. The only safe guide, then, is a careful scrutiny of the growing crops, and just as careful study of the yield, as shown when the crop is threshed. It is only on such evidence that a man is safe in paying high prices for wheat claimed to be superior seed and then putting this in the soil in increased quantities. Increased yields and a few days less occupied in ripening are what please the farmers of prairie Canada. If such are borne out by actual results the demand for the higher quality of seed will continue to increase.—Farmers Advocate.

## The King's Award.

Ottawa, Sept. 25.—The king's police medal to a new medal which has been instituted by the king to be awarded to members of constabulary forces and fire brigades throughout the empire in recognition of special and exceptional services, heroism, or devotion to duty. The medal, which is to be of silver, will be awarded annually, on the recommendation of the ministers of government.

Not more than 50 will be awarded in the dominions beyond the seas in any one year, 50 in India and 40 in the United Kingdom.

The dominion government has just been notified of the institution of the new medal. The first awards will probably be made before the end of the present year.

## Suffragettes Sentenced to 3 Months Hard Labor.

London, Sept. 23.—Ordinary imprisonment having failed to check the rising on the part of the suffragettes, a magistrate at Birmingham yesterday sentenced Mary Leigh and Charlotte Marsh, two of the ringleaders in the outbreak at the meeting in Birmingham on the night of September 17, when Premier Asquith delivered an address under the budget, to two and three months respectively, at hard labor.

Another woman was given one month at hard labor and others various terms of simple imprisonment.

When the sentences were announced a number of suffragettes in court picked up whatever they could lay their hands on in the form of missiles and broke the windows of the court room.

## Looking for an Etheopian.

Ottawa, Sept. 22.—Sir Charles Rivers Wilson's statement at Montreal complaining of the delay in the building of the government section of the transcontinental railway between Winnipeg and Superior Junction is a subject of lively interest here. J. D. McArthur's reply in which he urged that the delay had not been as great as represented seems only to intensify the interest.

There are those who declare that the utterance of Sir Charles Rivers Wilson was for political reason and that the plea of delay in the completion of the government section is intended to give the Grand Trunk Pacific railway a basis for the new demands on the federal treasury.

San Antonio, Tex., Sept. 24.—According to official reports compiled by the government of Mexico, 75,000 people were made homeless in the floods which devastated a large section of northern Mexico. The greater part of this immense damage, which will total millions, was inflicted August 27th and 28th.

"I had always heard that New Englanders were 'snooty,'" a young physician who has "graduated" from a village practice remarked the other day, "that I hardly thought it developed at such an early age."

He smiled reminiscently, then continued: "Just after I settled in Leeds Corners a 12-year-old boy called on me one evening. 'Say, Doc, I guess I got measles,' he remarked, 'that nobody knows it 'cept the folks at home, an' they ain't the kind that talks, if there's any good reason to keep quiet.'"

"I was puzzled and I suppose I looked it. 'Aw, got wise, Doc,' my small visitor suggested. 'What will you give me to go to school an' speak it among all the kids in the village.'—Lippincott's.

## Shantz Family Reunion.

Didsbury, Alberta,

Sept. 23, 1909.

A gathering of sixty took place today at the home of Mrs. Jerry Shantz. These were that part of the J. V. Shantz family who are in the Didsbury country, and the occasion was that of the visit of his daughter, Mrs. N. B. Dettler, and her daughter, Nora, of Berlin, Ont. J. V. Shantz is known as the "father" government land agent and founder of Didsbury. He has made some twenty trips to Manitoba and four or five to Didsbury. Most of the Memories in Manitoba and Saskatchewan were brought in and located by him. He lives in Berlin, Ont.

These present at the reunion were:

Mrs. J. B. Shantz, Mrs. N. B. Dettler, Miss Nora Dettler, Mrs. Andrew Weber, Mrs. Ezra Snyder, E. B. Shantz and wife, D. G. Moyer and wife, Mrs. Elias Shantz, Mrs. Salina Weber, Mrs. A. H. Hunsinger, Mrs. Fred Bulgon, Mrs. Sol. Weigand, Mrs. Alvin Hunsinger, Mrs. Will Traub, Eph. Weber, Alvin Snyder and wife, Norman Snyder and wife, Ivan Weber, M. Weber, and wife, Mrs. Ed. Weber, Mrs. Dan Schmidt, Tim Moyer, Mrs. Milton Moyer, Alvin Shantz, Wilfred Shantz, Nora Shantz, Olive Pearl Snyder, Jacob Snyder, Harry Shantz, Berrie Shantz, Merle Shantz, Ada Shantz, Jennie Shantz, Maynard Snyder, Verge Snyder, Vera Bulgon, Iren Hunsinger, Edward Moyer, Russell Snyder, Reta Weber, Mildred Schmidt, Reta Weigand, Pearlus Weigand, Alana Traub, Merlin Traub, Maud Traub.

## Can This Man Read Your Life?

The Rich, Poor, Exalted and Humble Seek His Advice on Business, Marriage, Friends, Enemies, Changes, Speculation, Love Affairs, Journeys, and All Events of Life.

MANY SAY HE REVEALS THEIR LIVES WITH AMAZING ACCURACY

Free Test Readings will be sent for a short time to all our Readers.

Has the veil of mystery that has so long shrouded the ancient sciences been raised at last? Can it be that a system has been perfected that reveals with reasonable accuracy the character and disposition of an individual, and so outlines the life to assist in avoiding errors and taking advantage of opportunities?

Roxory, a man who has for twenty years been delving into the mysteries of the occult, making a scientific study of the various methods of reading the lives of people, seems to have reached a higher round in the ladder of fame than his predecessors. Letters are pouring into his office from all parts of the world telling of the benefits derived from his advice. Many of his patrons look upon him as a man gifted with some strange, mysterious power, but he modestly asserts that what he accomplishes is due to an understanding of natural

He is a man of kindly feeling toward humanity, and his manner and tone immediately impress one with his sincere belief in his work. A huge stack of grateful letters from people who have received readings from him abate any feeling of proof as to his ability. Even Astrologers and Palmists admit that his system surpasses anything yet introduced.

The Rev. G. C. H. Haskard, Ph.D., of St. Paul's Evangelical Lutheran Church, in a letter to Fred Roxory, says: "You are certainly the greatest specialist and master of your profession. Everyone consulting you will marvel at the correctness of your detailed personal readings and advice. The most skeptical will consult you again and again after corresponding with you once."

If you wish to take advantage of Roxory's generous offer and obtain a free reading, send your date, month and year of birth, state whether Mr., Mrs. or Miss, and also copy the following verse in your own handwriting: "I have heard of your power."

To read people's lives, And would ask what for me You have to advise?

Be sure to give your correct name, birth date, and address and write plainly. Send your letter to ROXORY, Dept. 30, No. 172 Kensington High Street, London, W., England. If you wish you may enclose 10 cents (Canadian stamps) to pay postage, clerical work, etc. Do not enclose coins or silver in letters.

The Northeastern Railway of England land in service an electrically driven car for the express purpose of transporting fish.

## QUEER HOSPITALITY.

A Curious Experience in the Wilds of Arabia.

Of the curious ideas of hospitality held by some of the natives of that wild country lying between Hamed and Damascus two travelers, Captain Hunter and Captain Aspinall, tell in the geographical magazine. They found Faysal bin Hashid in a room, the roof of which was supported by the wooden pillars. All round the sides of the room were spread carpets, on which sat his viziers and members of his court. He is a man of thirty three years, with a dark, pointed beard, good, regular features, but eyes that are cold and cruel, and he has a nervous, fidgety manner and was all the time arranging his shila (silk) and combing and curling his mustache and beard and admiring himself in a small, cheap looking mirror that hung just behind him. Above his head on the wall hung the silver mounted walking stick and a sword. The sheath of which was also covered in silver. He was very richly dressed.

"On our arrival at the house placed at our disposal we congratulated ourselves on our good fortune in having such a cordial welcome, but we were speedily disillusioned. We had not been there more than five minutes when Faysal's head slave, a richly dressed personage called Yamen, came to tell us that the emir would not take our camel or our money as he had plenty of both, but that he would like the things of European make or of interest to us. We happened to have. This was only too true and during our five days' stay there there was a continual procession of silver and hangers on from the emir's demanding things for the emir and his viziers and favorites and demanding them in such a way that it was impossible for us to refuse. At last we had practically nothing of any value left, having been forced of watches, revolver, compasses, various clothes and other articles of our kit."

"Apart from this system of more or less polite robbery we were well treated by the emir and had our food sent us from the castle by him. At last, three or four times a day we had a royal command from him and used to go to the castle and drink many cups of coffee and sweetened tea with him and talk about his country and Europe. He was always very genial on these occasions, and I honestly think he considered he was treating us very well in not taking all we had and turning us adrift to die in the desert."

## RHEUMATISM.

One Course of Treatment For the Cure of the Disease.

To cure rheumatism it is necessary to rid the system of the excess of uric acid, and to do this a proper diet is even more important than the use of drugs, though in very severe cases the latter are not to be despised in conjunction with the dieting that is absolutely essential.

The Massachusetts General Hospital of Boston allows the following diet for its rheumatic patients: Graham or brown bread, white bread (limited to one-half slice daily), corn, rice, eggs, flour, puddings, crackers, beans, peas, all kinds of vegetables, sweet potatoes, tomatoes and asparagus, rhubarb, fresh fish, butter, cream, turnip, turnip, cream, alkaline water and toast. Avoid red meats, starch or potatoes, white bread and sugar.

The sensible use of water both internally and externally plays a large part in the prevention or cure of rheumatism. One or two glasses, either hot or cold, taken before and after every morning is sufficient to start the organs of digestion for the day, and at least one glass should be taken between meals. Often the pain water will be enough to move a slightly constipated patient, but if not a mild laxative water may be taken instead. It is very essential to keep the bowels open in cases of rheumatism.

Uric acid in the system is a poison, and it must not be forgotten that poisonous waste matter is also eliminated through the skin. The pores of the skin must be kept freely open and are allowed to become clogged if we neglect to obtain the best results from the rheumatic cases. A hot bath at bedtime is often very helpful.—Delineator

**Maddening Snuff.**  
On the Amazon river several Indian tribes use snuff, called paraca, which is made of the seeds of a species of plant. When a bout of snuff taking is determined on the people become high and intoxicated and then use the snuff the effect of paraca is so violent that the taker drops as if shot and lies in a senseless state for some time. Those more accustomed to it are highly excited, laughing and singing as it may. The effect soon subsides. Other tribes use it to repeat again during the wet season.

**Plenty to Do Them.**  
"Remember that you can't do everything with money."  
"Oh, I know that. But the things you can't do with money are the things done by so many other people that there's no reason why one should want to do them."—Chicago Record Herald.

## Rheumatism Driven From the Blood

A Remedy Which Assists Nature Makes a Cure Which is Permanent as This Case Proves.

Every sufferer from rheumatism wants to be cured and to stay cured. The prospect of the frequent return of the trouble is not attractive to anybody who has gone through one "keep down" the rheumatic poisons in the blood. The tonic treatment by Dr. Williams' Pink Pills has proved by hundreds of cures that it builds up the blood to a point that enables it to cast out these poisons through the regular channels of excretion—the bowels, the kidneys and the skin. When this is done the rheumatism is permanently cured, and as long as the blood is kept pure and rich the patient will be free from rheumatism. Mr. Thomas McNell, Richibucto, N.B., says—"Permit me to bear testimony to the worth of Dr. Williams' Pink Pills as a cure for acute rheumatism. My son, Frederick, was subject to this painful trouble for a period of eight or ten years, and during this time periodical attacks would regularly occur. His last attack was a most severe one, and the pains were excruciating in the extreme, shooting through the joints, and he was unable to such an extent that even the approach of any person would cause him to cry out with fear and had rest neither day or night. Our family doctor, a man of skill and experience, applied many remedies, but without success, and could give no encouragement other than that the warmer weather then approaching might prove beneficial. Just at this time we noticed where some person similarly afflicted had been cured by Dr. Williams' Pink Pills and decided to try them. He kept on using the Pills, each succeeding box being followed by a complete cure. He had taken ten boxes, when all pains and aches had completely disappeared, and he was able to get on with his work. The cure is complete, and is entirely due to Dr. Williams' Pink Pills."

You can get these Pills from any medicine dealer or they will be sent by mail at 50 cents per box, or six boxes for \$2.50 by Dr. Williams' Medicine Co., Brockville, Ont.

**A Few Nice Remarks.**

Many a man makes his mark in the world—with a whitewash brush. A woman's no mean feat, but it usually has a double back action.

**Minard's Liniment Cures Dandruff.**  
"Why doesn't the thing any more; lost his voice!"  
"No, his nerve."

There may be other cures, but Holloway's Corn Cure stands at the head of all so far as results are concerned.

**Two Sides To This Question.**  
Spinsters—Aren't you weary of waiting for him to come?  
Matrons—No, aren't you weary of having no one to wait for?

**Minard's Liniment Co., Limited.**  
Gents—A customer of ours cured a very bad case of rheumatism, and a valuable horse by the use of MINARD'S LINIMENT.

**Yours truly,**  
VILANDY FRERES.

The Technological Museum of Sydney, Australia, has a model of the famous Strasburg clock, which has been running accurately for 20 years.

Used according to directions, Dr. J. D. Kellogg's Dysentery Cordial will afford relief in the most acute form of summer dysentery. When the attack manifests itself no time should be lost in seeking the aid of the Cordial, which will immediately soothe the stomach and intestines and allay the irritation and pain. A trial of it will convince anyone of the truth of these assertions.

A little lime sprinkled in a watering trough used by horses or livestock will keep the water sweet and prevent the formation of scum.

**SAVED IN HIS OLD AGE.**  
Amnapolis, N.S., May 14, 1909.  
I am over eighty years of age and have suffered from Kidney and Bladder Trouble for fifteen years. I took doctors' medicine and got no help. I want to thank you for sending me the sample box of Gin Pills which helped me.

I have taken six boxes of Gin Pills altogether but not relief before I had taken four boxes. I have now got up some nights every fifteen minutes and had to use an instrument before I could get up. I can lie in bed four or five hours without getting up.  
W. H. PIERCE,  
Weir National Chemical Co., (Dept. N.T.) Toronto, for free samples. Regular size, 50c; 6c for \$2.50.

## PERFORMERS BY HEREDITY.

Circus Families That Have Been So for Many Generations.

Circus folk—unlike their theatrical cousins in general—save their money. Their vigorous training forbids dissipation and late hours, and their busy life keeps their minds intent on their work. Their business management encourages thrift, from the high-salaried performers down to the stabled-squads, board, lodging, and traveling expenses are paid to the show, and salary cheques are held in trust at the commissary there. There is no reason why one should not leave at the season's end with nearly a whole season's earnings.

Nearly all the best performers have come into their occupation by heredity. Ninety per cent. of them, it is said, can be included within thirty families, some of which go back to the early days of the seventeenth century.

The Chirkins of Italy, an equestrian family, go back to 1602, when their women rode before the Royal Court. The Bonaris claim a circus lineage, unbroken of two hundred and twenty-five years. The Clerksons have owned a circus in Ireland for over a hundred years and the sixth generation of the family is now doing aerial work in this country.

Their last attack was a most severe one, and the pains were excruciating in the extreme, shooting through the joints, and he was unable to such an extent that even the approach of any person would cause him to cry out with fear and had rest neither day or night. Our family doctor, a man of skill and experience, applied many remedies, but without success, and could give no encouragement other than that the warmer weather then approaching might prove beneficial. Just at this time we noticed where some person similarly afflicted had been cured by Dr. Williams' Pink Pills and decided to try them. He kept on using the Pills, each succeeding box being followed by a complete cure. He had taken ten boxes, when all pains and aches had completely disappeared, and he was able to get on with his work. The cure is complete, and is entirely due to Dr. Williams' Pink Pills."

**Surgeon and Major Pond.**

Major Pond, who was responsible for introducing to the public some of the greater and lesser lights of the lecture platform, had many an experience full of eccentric humor. Sometimes his charges met him with the greatest good humor. Often when he approached felt compelled to bend back his shoulders almost to the point of his system, for a lady was so persuasive as Major Pond.

The great performer, Charles Burroughs, replied him in an astounding scale of denial. The first reply was: "It will only be a matter of time before you see me, as I am not at all in your line."

The second said: "Your good natured pertinacity is so admirable that I trust you will not waste it upon an impossible object. The whole of America in Italian would not tempt me to deliver one such lecture."

The third reply was conclusive: "I have in as plain a manner as possible declined to make your acquaintance, and I beg, with all courtesy and decision, to do the same again. I know your business, and I have no wish to enter upon it further."

**A Queen Made a Color Famous.**

Maria Antoniette early in the summer of 1773 appeared before the king, her husband, in a lustrous dress of gilette brown, and he remarked, laughing, "That puce color is delightfully becoming to you." Very soon all the court ladies had puce colored gowns, but the color not being universally becoming and less extravagant than their brilliant tints the fashion of puce colored dress was adopted by the upper middle class more than by the lower. When the color had filled their orders. The varying shades were given the most peculiar names, some of them attractive, "flea's back," "Paris mud" and "indiscreet tears" being the most euphonious.

**The Stone Tree.**

There is a tree which grows in Mexico called the "chihui," or stone tree. It is of enormous proportions, both in circumference and height. It has a number of branches spreading out widely and carrying leaves of a yellowish green color. The wood is extremely fine and easily worked in a green state. It is not given to either warping or splitting. The wonderful part about it is that after being cut and dried for a long time it gradually hardens and in the course of a few years it is absolutely petrified, whether left in the ground or removed from it. From this timber houses can be built that would in a few years become completely impregnable and would last as though built of stone.

**Double Nonsense.**  
"The nonsense of a nonsensical person."  
"Nonsense! I know a man who has not expected a raise for years"—Los Angeles Times.

**The One Drawback**  
I find would go where the breezes blow. In a climate such as this, I find it hard to leave behind all the weary grind. At a shady, soft retreat, I'd like to sit with the girls a bit. It really would be nice, But it takes the cash to cut a dash, And I can't spare up the price!

Even—And you wish your eloquence none without a hitch? Jack—It did, indeed.

## Alberta Fairs

The following are the dates set by the annual convention of the Alberta Agricultural Fairs Association for the fairs to be held in Alberta in 1909:

Didsbury, October 5 and 6.  
Vermilion, Sept. 30 and October 1.  
Viking, October 5.  
Taber, September 30.  
Irvine, October 1.  
Ponoka, October 6 and 7.  
Lacombe, October 7 and 8.  
Three Hills, October 12.  
Piddis, October 14.

Stoke-on-Trent, Sept. 21. — Hundreds of visitors attended divine service at the little church in the village of Blurton on Sunday, when the service took the form of the celebration of Preliminary Hutchinson's advent into his 100th year.

The prebendary is helped at Blurton by his son, who conducted the service on Sunday morning, but, although he almost decided over a year ago to cease from taking an active part in the church work, the prebendary found that his delight in it would not permit him to retire. He is greatly beloved, and the villagers were overjoyed when they heard that they were to continue to listen to his sermons.

## STRAYED

Bull branded—over 10 on left rib, behind shoulder, also—over 4P on right rump. This bull has broken through a legal wire fence and done considerable damage. Owner can have same by paying expenses. J. Burns, S. W. & Sec. 36 T. 31, R. 28, W. 4.

"Vessels Large May Venture More, but Little Ships Must Stay Near Shore."

The large display ads. are good for the large business and the Classified Want Ads. are proportionately good for the small firm. In fact many large firms become such by the diligent use of the Classified Columns. There is ample in good—start now.

Any person having a patent or invention may obtain a valuable and profitable business by advertising it in the Scientific American. This paper is the largest and most influential in the world. It is read by the most prominent men in every country. It is the best medium for advertising inventions. It is the best medium for advertising inventions. It is the best medium for advertising inventions.
